Testimonial,

My office has been working with Spencer-Abbott, inc. since the early 90's. Over that time, they have been responsible for the highly successful execution of some of our most complex and demanding projects. Because of their consistently proactive approach to project management and their attention to detail, I have always looked for, and enjoyed, any opportunity I have had to work with them.

From one project to the next, I know that the process and the final product will meet or exceed my expectations. I have come to rely on them as a true collaborators in the everyday problem solving that is part of meticulous construction.

I am pleased to be able to give a strong recommendation of Nick Tighe and Spencer-Abbott, Inc. to any client that can recognize the value of a quality builder.

Sincerely,

Philip G. Ivory RA
